Before we begin...

Schedule and info

Learning track

Before we begin...

Session Types

- **Hands-on**

Get practical experience with the feature through guided exercises and interactive activities

- **Interactive**

Engage in a dynamic session where you can ask questions and influence the direction of the presentation

- **Presentation**

Watch and learn as we showcase the feature in a structured presentation

Before we begin...

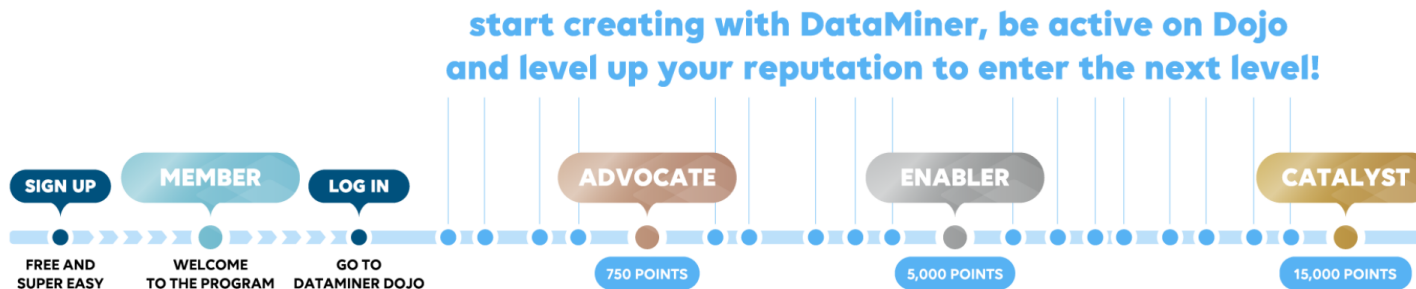

DevOps points

Some hands-on sessions will contain exercises where you will be able to earn extra DevOps points!
Follow the instructions shown during those sessions.

Make sure you are registered!

Empower 2025 – Introduction to dataminer.services • REV001

15

Sign in to dataminer.services

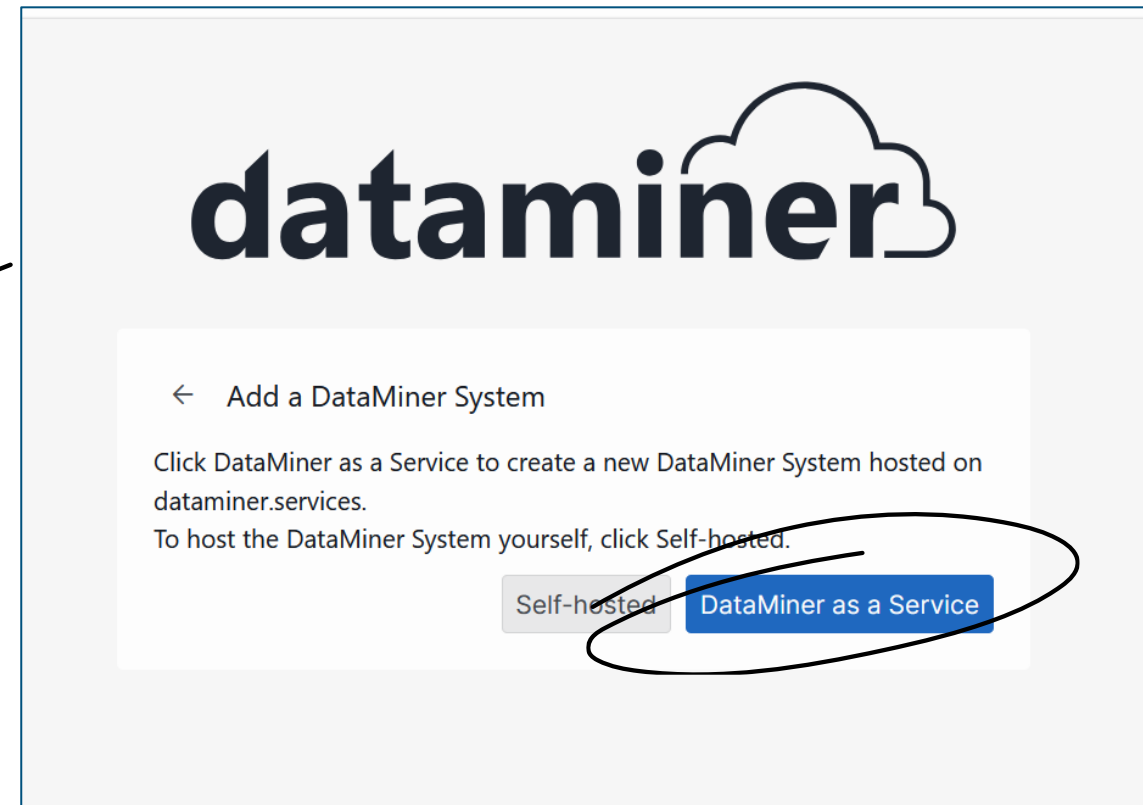

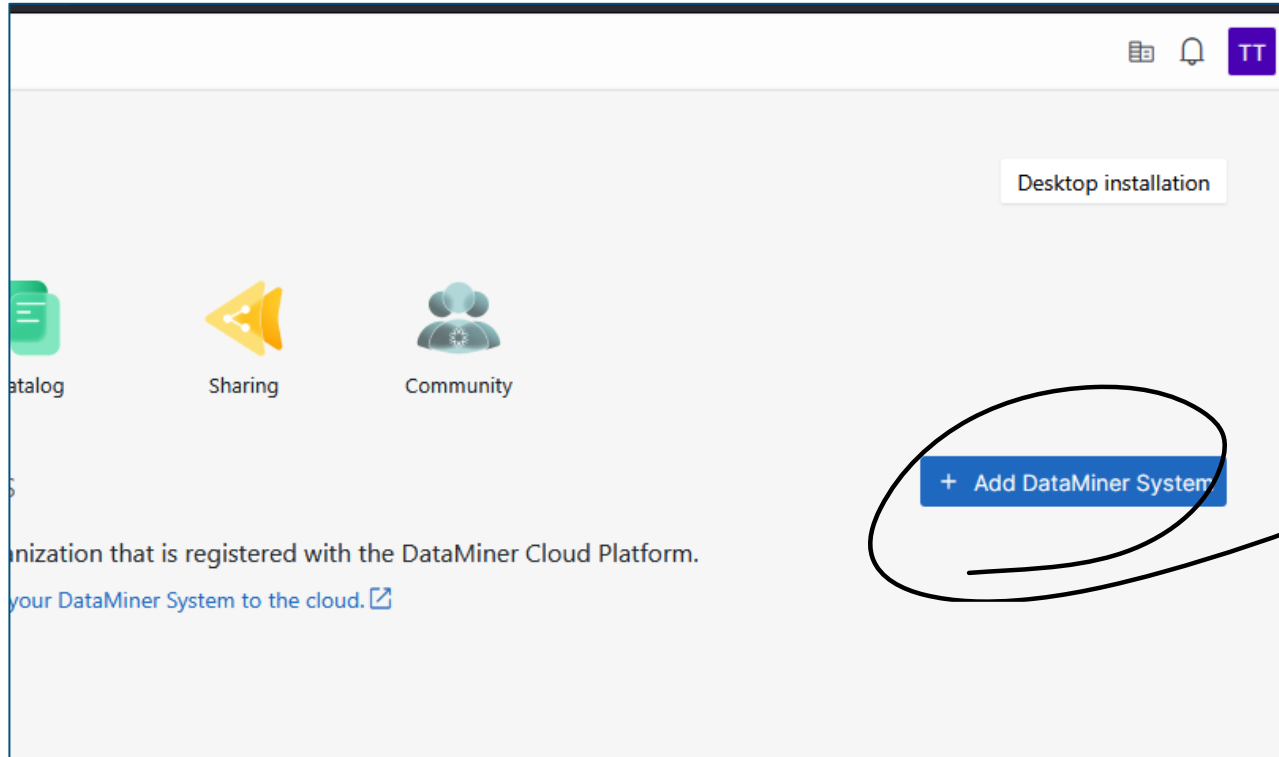

The main sign-in page for dataminer.services. It features the dataminer logo at the top. Below the logo, it says "Sign in with" and provides four social login options: MICROSOFT, GOOGLE, AMAZON, and LINKEDIN. Below these is an "OR" separator. Underneath, it says "Sign in with email" and provides fields for "Email Address" and "Password". There is a link for "Forgot your password?" and a checkbox for "Keep me signed in". At the bottom is a large blue "SIGN IN" button.

A secondary sign-in page for dataminer.services, likely a modal or a second step. It features the dataminer logo at the top. Below the logo, it says "Please provide the following details." and provides a text area for "TestUser" and a text field for "Last Name *". Below these are two blue buttons: "CONTINUE" and "CANCEL". At the bottom, it says "by continuing you are agreeing with our [terms and conditions](#)."

Welcome to the cloud. We'll handle the rest now ...

What about YOU?

- I use (non-Skyline) cloud solutions in my private life (Gmail, Spotify ...)
- I use (non-Skyline) cloud solutions in my company (Office365, AWS, Slack, Salesforce ...)
- I know the difference between public, private and hybrid cloud
- My company has a cloud strategy for IT infrastructure and applications
- I use the DataMiner Dojo (questions, feature requests ...)
- I have a self-managed DataMiner system connected to dataminer.services
- I use SStorage as a Service
- I use Dataminer as a Service
- I share dashboards
- I use the DataMiner MS Teams bot (ChatOps)

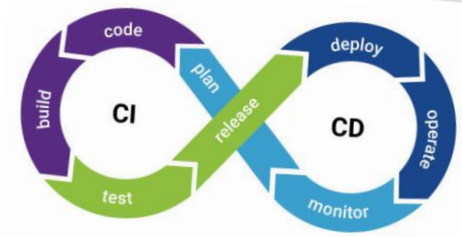

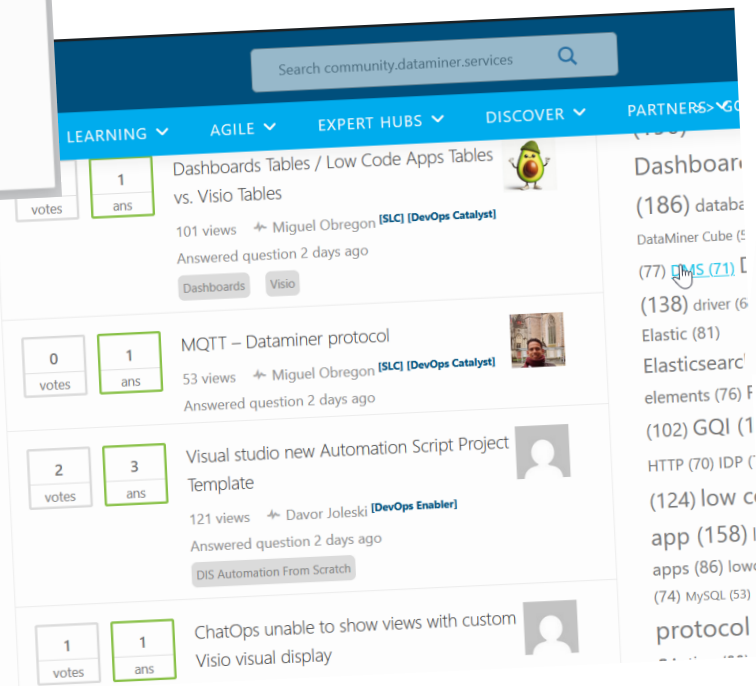

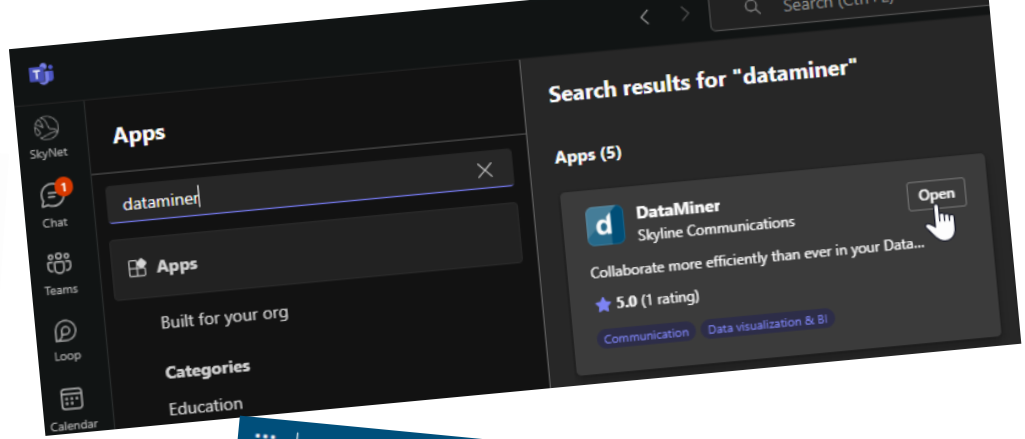

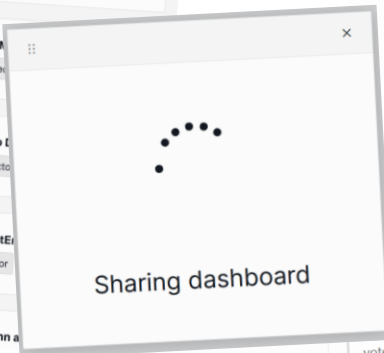

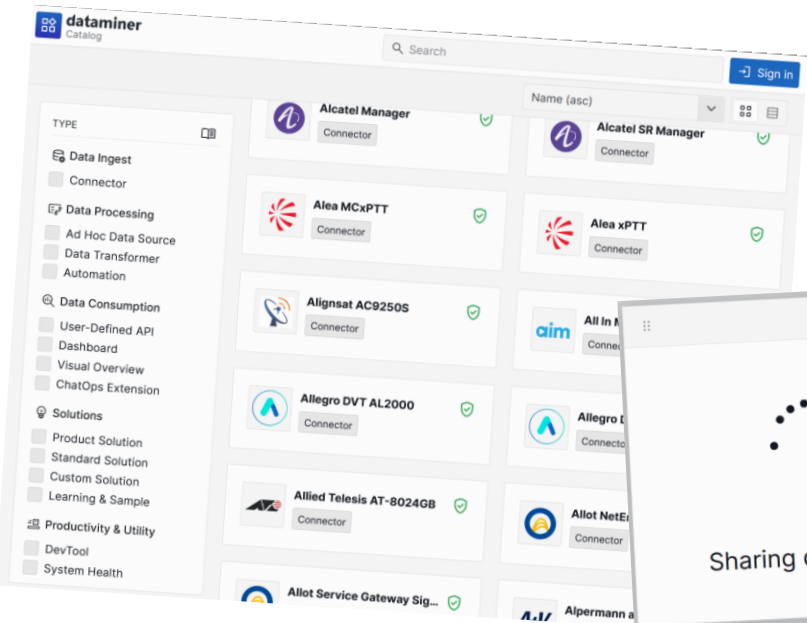

___/10

dataminer.services

website <> services?

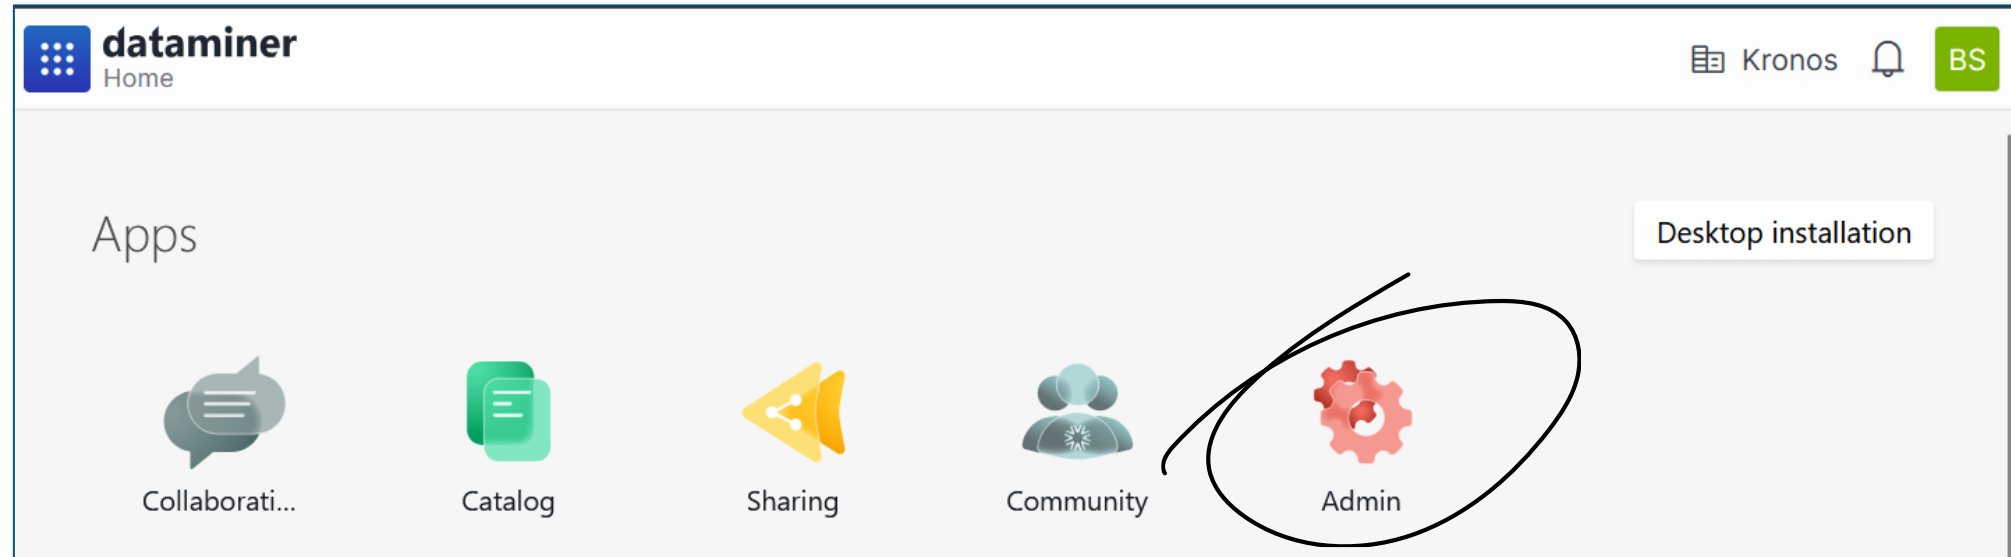

The services: at a glance

Organization Admin app (1)

Overview

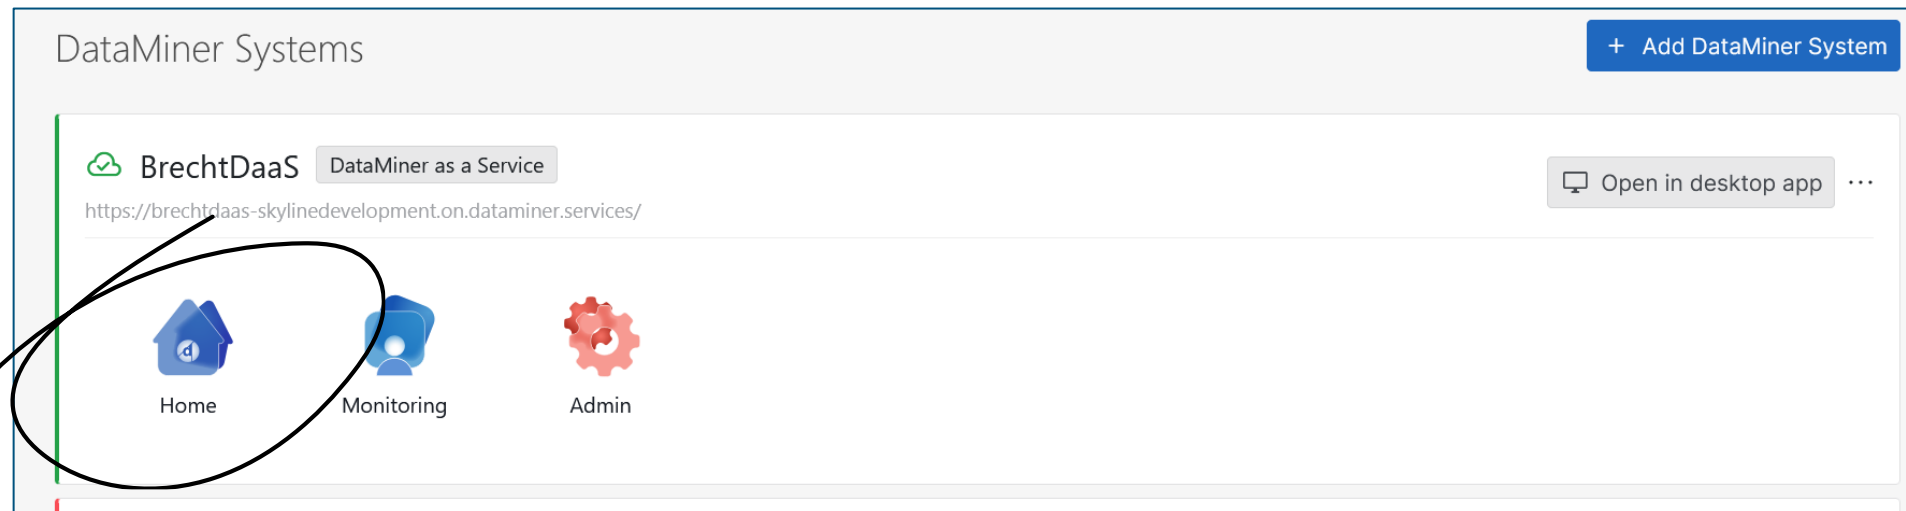

Organization admin

- Your organization at your fingertips
- Manage users, keys, security settings, MS Teams integration ...
- Keep an eye on your usage
- Investigate via audit logs

Ready, set, go!

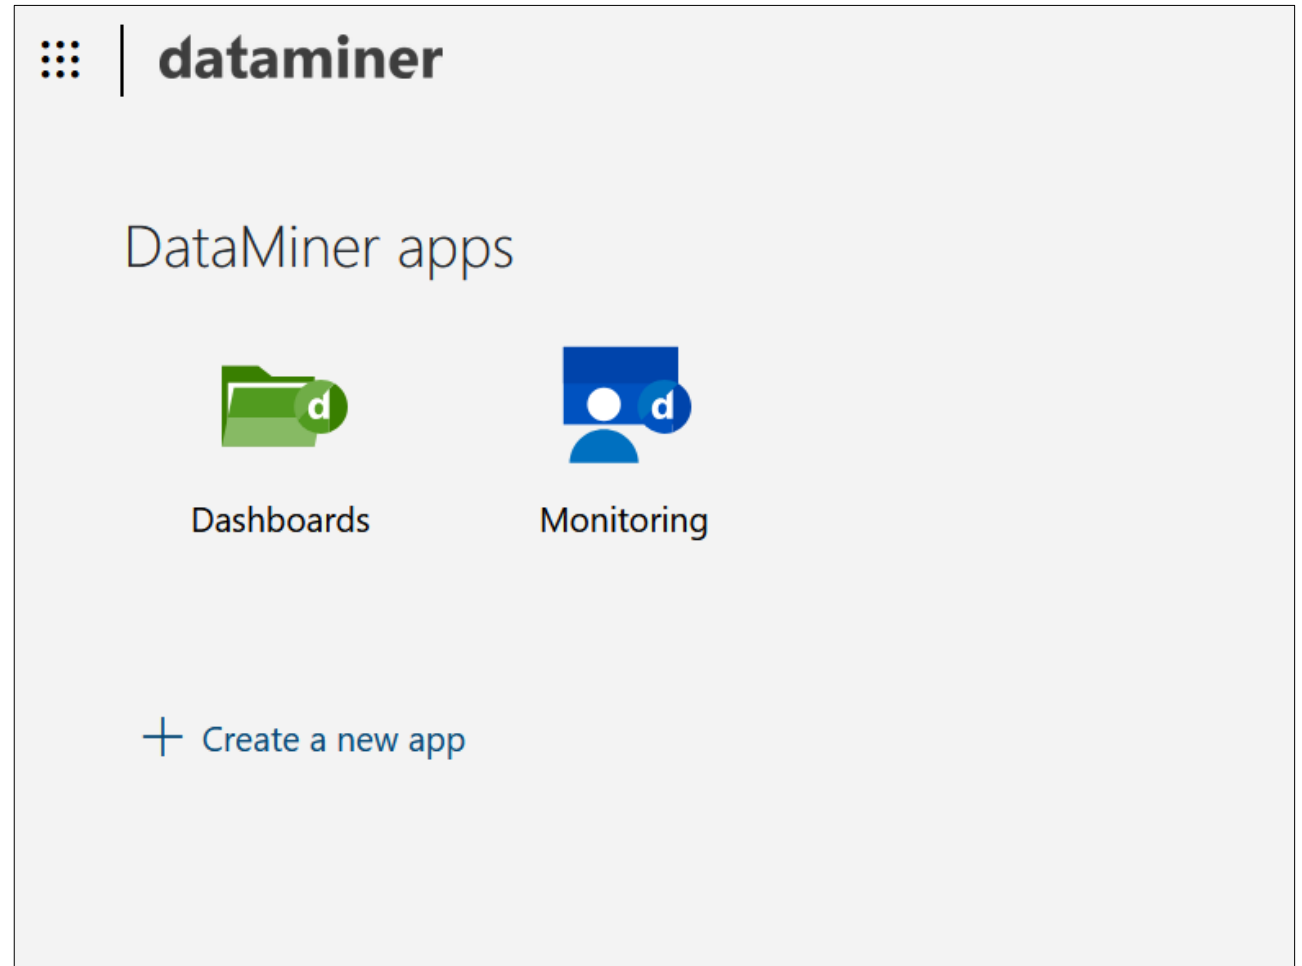

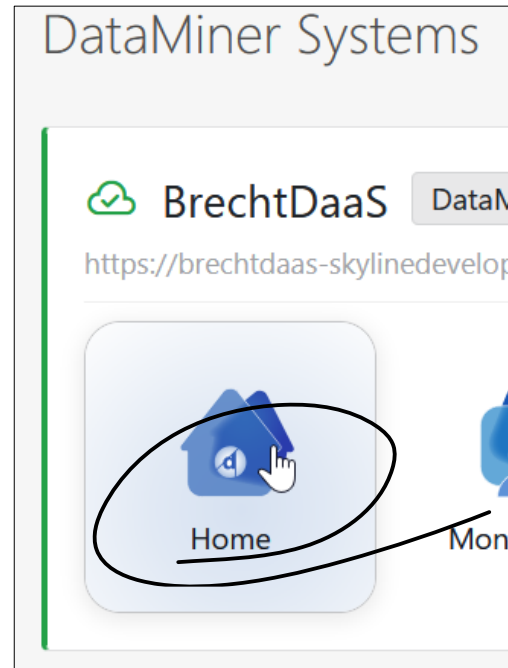

- System ready?
- Let's get to work!

DMS Home app

DMS Home app

- Let's look at our new system's Home
- An empty playground?

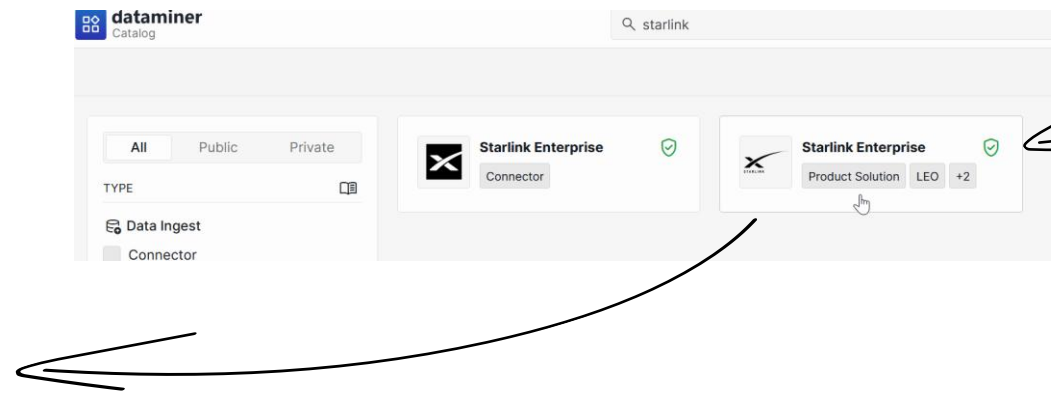

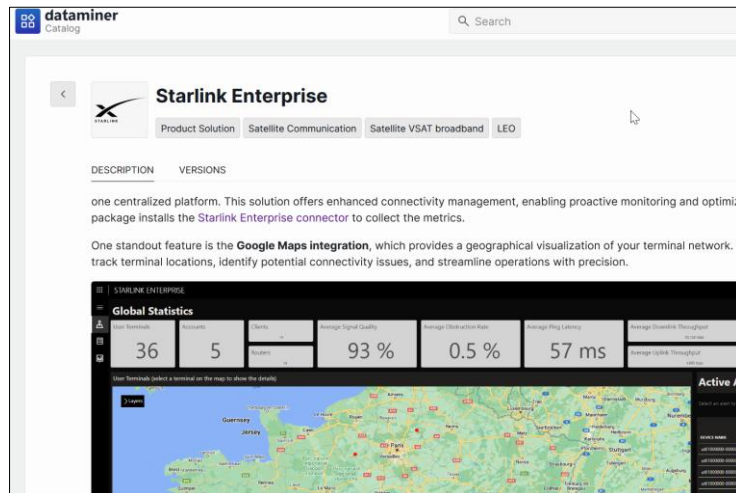

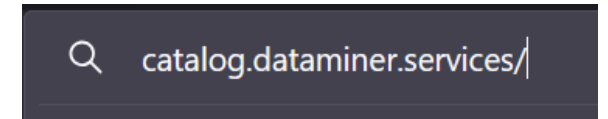

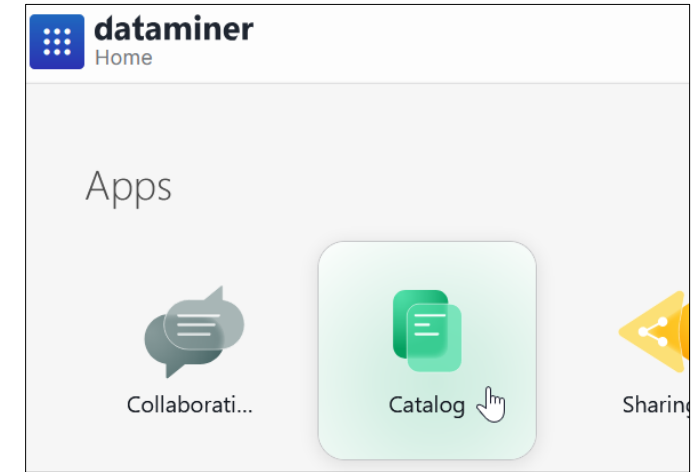

- Let's add some content!

Catalog

Catalog

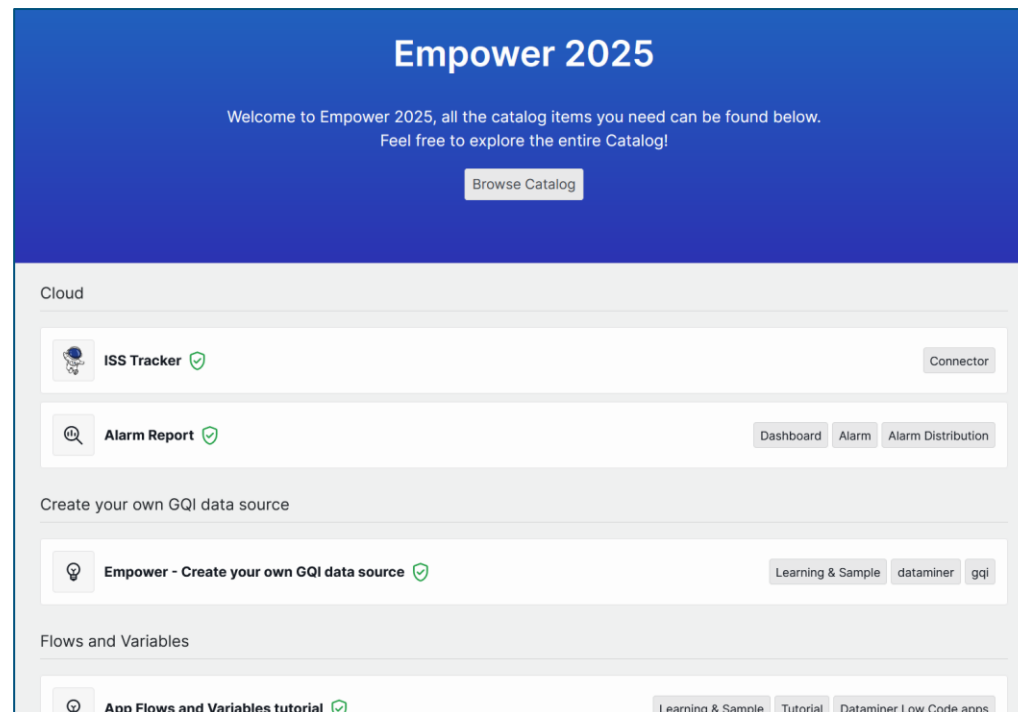

- The place to be to find connectors, dashboards, automation scripts, full solutions ...
- Catalog is now open for window shopping
- Improved UI & UX: icons, item types, filter, contrast, deployment status ...
- Feel free to contribute: you can upload your own items & put them public!

Catalog – Empower 2025

- In several Empower sessions, you'll be asked to install content from the Catalog.
- Let's deploy a couple of items to your system already.

💡 **Tip:** you'll find all you need for Empower via: catalog.dataminer.services/empower

Catalog – deploy items

Deploy the following items to your system:

AI

- Empower 2025 – AI (Custom solution)

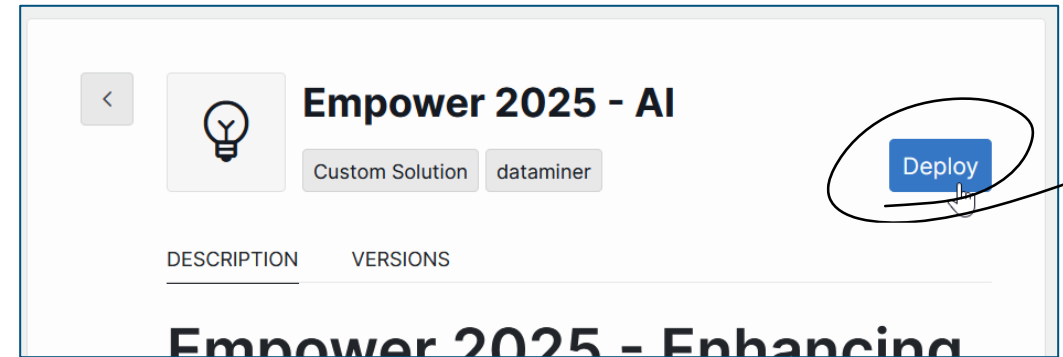

Cloud

- ISS Tracker (Product Solution)
- Alarm Report (Dashboard)

What's new in Dashboards

- GQI fundamentals and extensions tutorial (Learning & Sample)

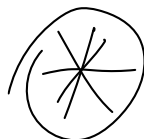

catalog.dataminer.services/empower

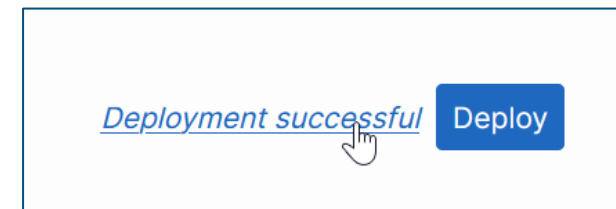

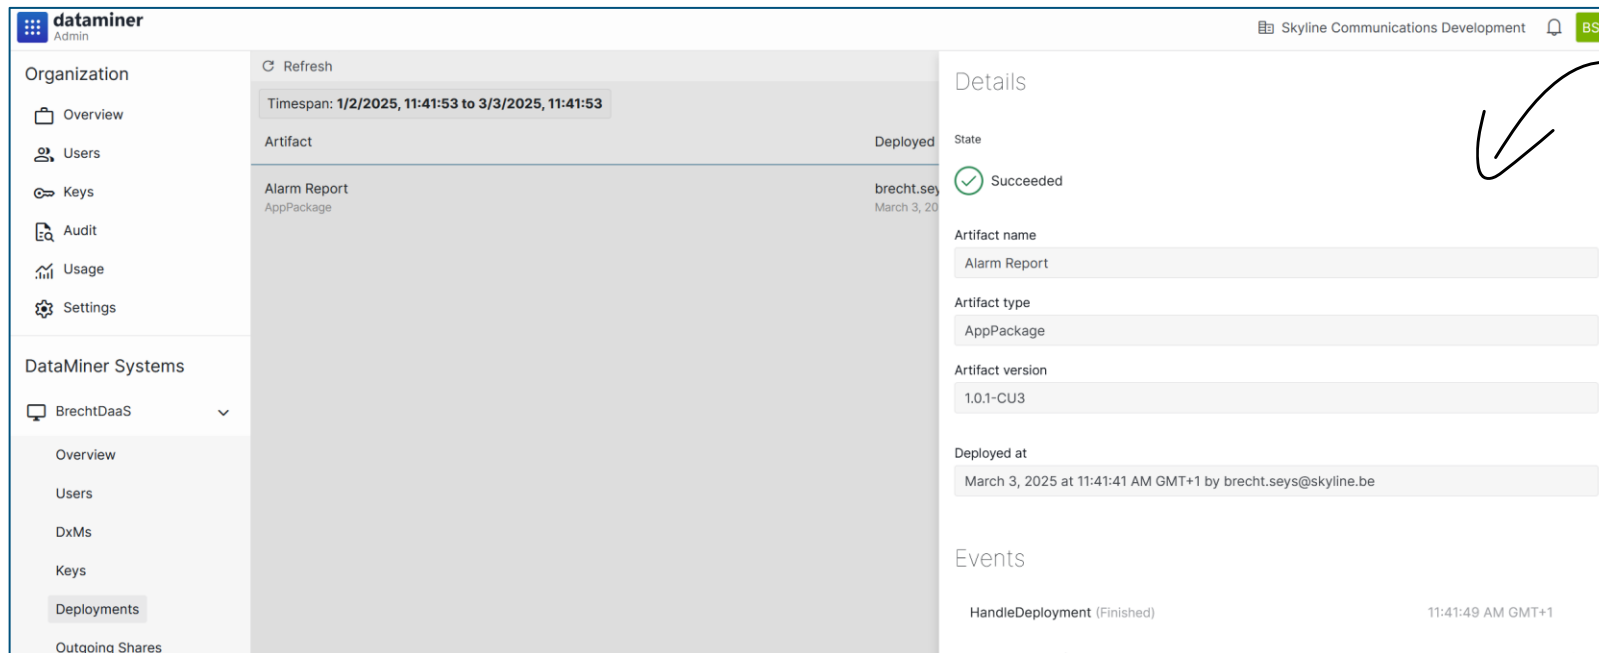

Exercise: Catalog – deploy items

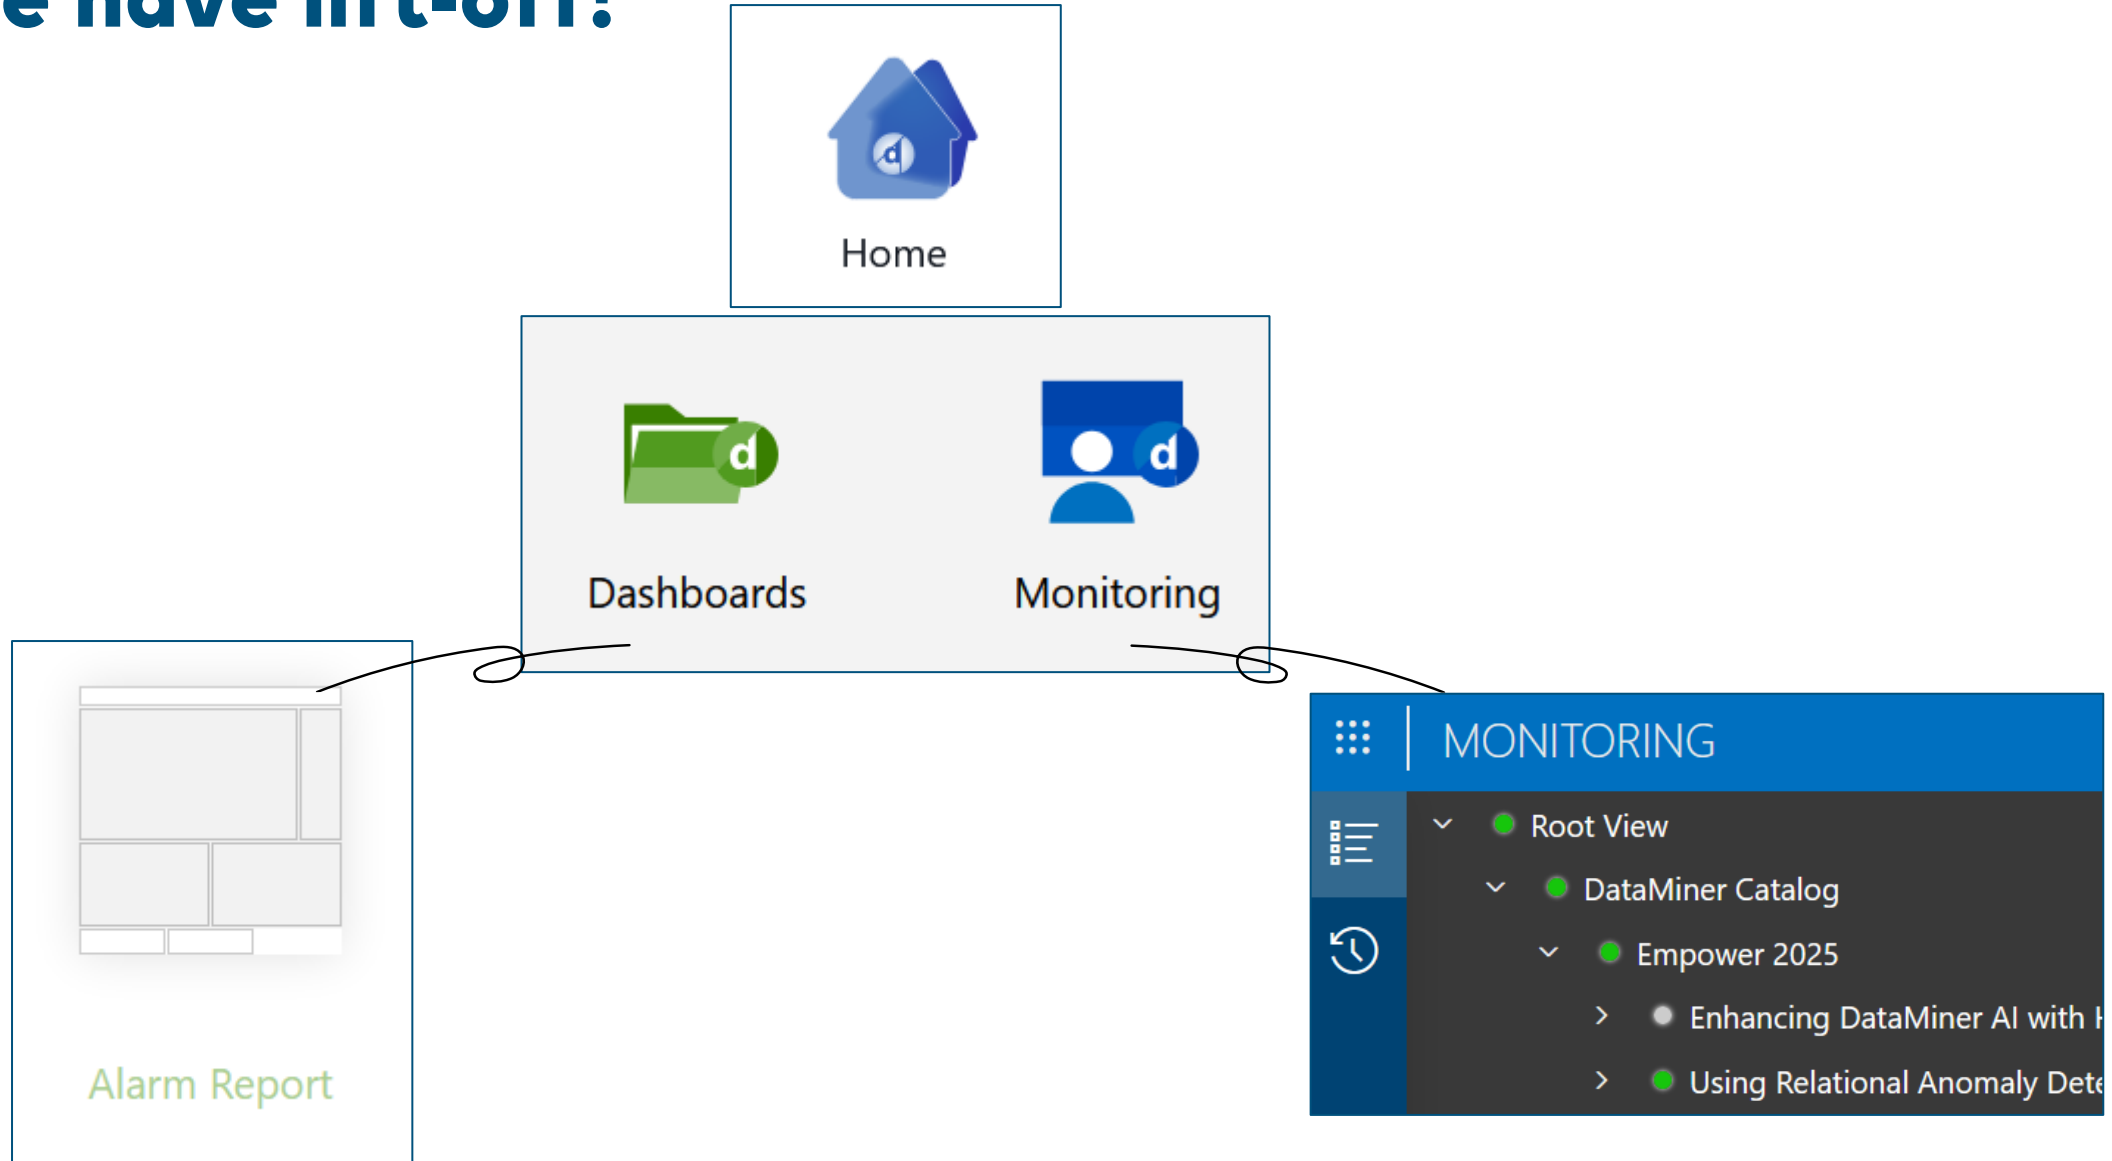

Click on the status message from the “Alarm Report” deployment to see the details in the Admin app

Screenshot this & email it for 25 Dojo points:
send it to brecht.seys@skyline.be

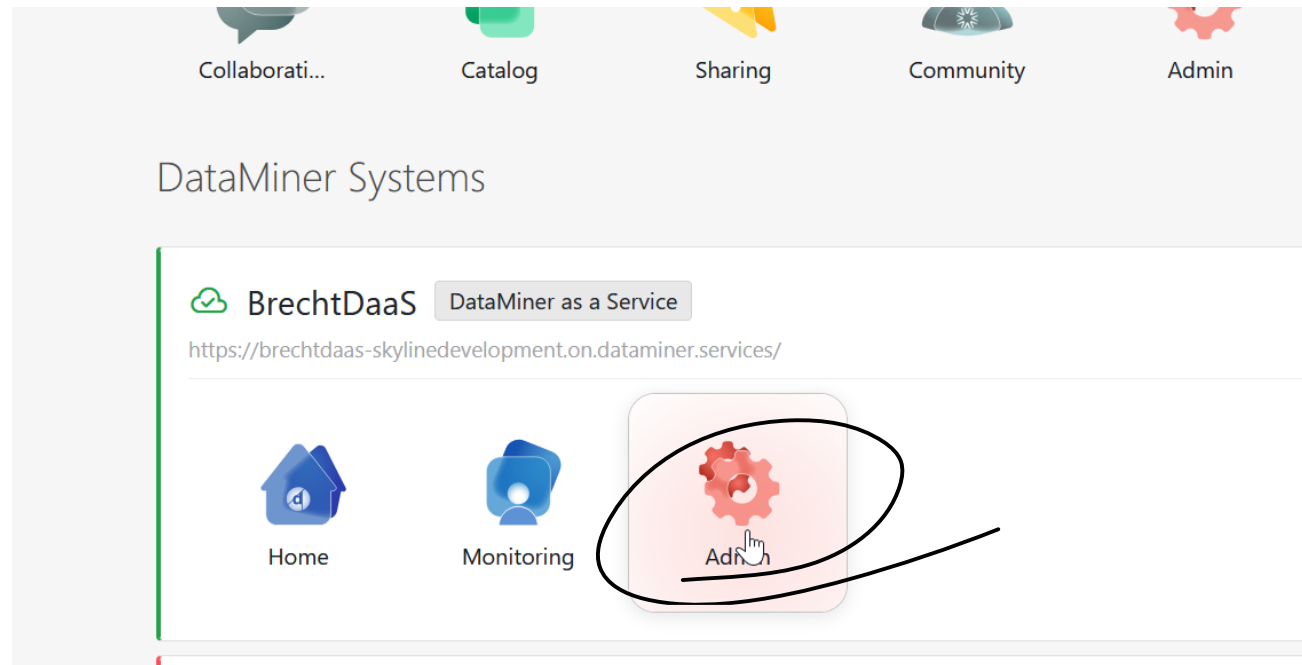

We have lift-off!

DMS Admin app

DMS Admin app: manage your DMS through the cloud

- Clicking the deployment status message brought us to the **DMS Admin app**
- Remember: you can also access it directly via **dataminer.services**
- You'll use your DaaS (the actual DataMiner system) in the next Empower sessions
- Let's compare the **DMS Admin app** with the **Organization Admin** app from before

Organization Admin vs DataMiner System Admin app

The image compares two interfaces from the dataminer Admin application. The left interface is the 'Organization Admin' view, and the right is the 'DataMiner System Admin' view for a specific system named 'BrechtDaaS'.

Organization Admin (Left):

- Organization Overview:** Status (Verified), Credits (1005252), Chat integration: Teams (Microsoft tenant ID: 5f175691-8d1c-4932-b7c8-ce990839ac40).
- DataMiner Systems:** A table listing systems and their URLs.

| NAME | URL |
|-------------|---|
| BrechtDaaS | https://brechtdaas-skylinedevelopment.on.dataminer.services |
| BrechtSTaaS | https://brechtstaas-skylinedevelopment.on.dataminer.services |

DataMiner System Admin (Right):

- System Overview:** Name (BrechtDaaS), Url (<https://brechtdaas-skylinedevelopment.on.dataminer.services>).
- Storage as a Service:** Region (West Europe).
- DxMs:** Status (checked), Updates (checked).
- Connection:** Cloud Endpoint enabled (checked), dataminer.services (reachable), DataMiner Agent (reachable).

Organization Admin app (2)

Audit & Usage

Audit & usage

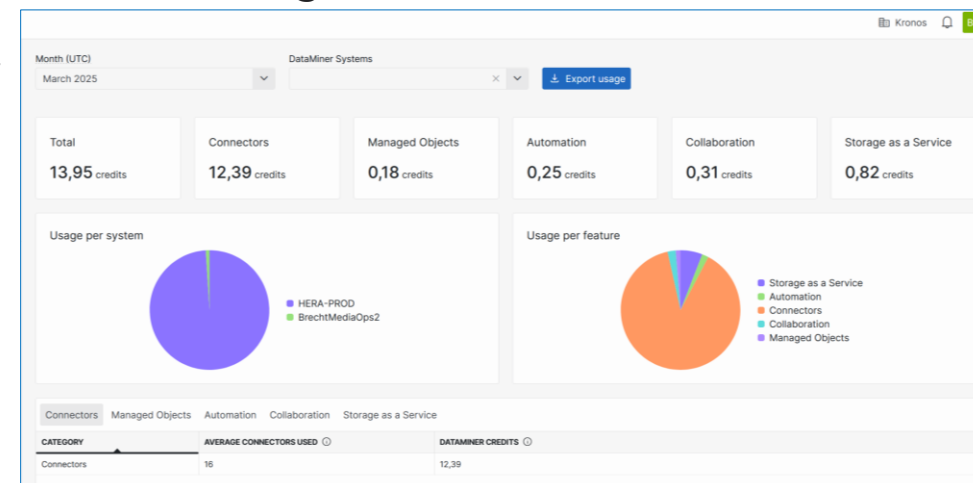

- Users with 'Owner' or 'Admin' role have access to **Audit** in the Organization Admin app. Here you can investigate behaviour: who did what? Exporting is also possible:

| | | | | | | | | | |
|-----------|-----------|--------------------|-----------|------------------|--------|---------------------|--|---------|------------------------------------|
| 16-Kronos | 8a5482fe- | HERA-PRC Deployme | dfb82e8a- | HelloData Create | ApiKey | api key | | Allowed | {"artifactId":"dmscript/cc581044-1 |
| 16-Kronos | 8a5482fe- | HERA-PRC Deployme | 7194521b- | HelloData Create | ApiKey | api key | | Allowed | {"artifactId":"dmscript/18e19d60-b |
| 16-Kronos | 8a5482fe- | HERA-PRC Deployme | 6d595356- | HelloData Create | ApiKey | api key | | Allowed | {"artifactId":"dmscript/7aaf70b5-8 |
| 16-Kronos | e8dca912- | BrechtMec RemoteAc | e8dca912- | BrechtMec Access | User | brecht.seys@skyline | | Allowed | |
| 16-Kronos | e8dca912- | BrechtMec RemoteAc | e8dca912- | BrechtMec Access | User | brecht.seys@skyline | | Allowed | |
| 16-Kronos | 8a5482fe- | HERA-PRC Deployme | 85d90b94- | HelloData Create | ApiKey | api key | | Allowed | {"artifactId":"dmscript/585ce653-1 |
| 16-Kronos | 8a5482fe- | HERA-PRC Deployme | c08a21fd- | HelloData Create | AniKey | ani key | | Allowed | {"artifactId":"dmscript/362a0314-6 |

- They'll also have access to the **Usage** page. Here you can keep an eye on your cloud consumption. Exporting to .csv or via API is also possible, you'll also get more detailed insights.

Note: usage prices are currently always shown as Pay Per Use.

Screenshot your organization's Usage at the end of Empower send it to brecht.seys@skyline.be for 25 Dojo points
